Work On Dam Closed For Year

The work on the new dam being built by the city was suspended for the year last Thursday. The work this year has made a great progress towards an unlimited supply of water for the town, and when the new dam is really completed to specifications Wrangell will have one of the best water systems of any town in Southeastern Alaska. The work for this year was started the first of May, when a camp was established at the dam, and the work was carried forward steadily for four months under the able supervision of Oscar Willett. The work this year has been mostly the building up of the dam from the excavation which was done last year and at the present time the new dam is within two feet two inch of the old dam and is catching the overflow from the old dam. With a couple of months work next season the new dam will be completed and then Wrangell need have no fear of a water famine such she has suffered in the past.

A Juneau paper says that plans are being drawn for the establishment, near the Mendenhall glacier, of a modern Country club building with an 8 hole golf course and a modern tennis court.

30 Tons Of Machinery For Devil's Elbow

Sam Silverman, the promoter of the Devil's Elbow Property, arrived up from the south last Sunday with a large consignment of machinery for the new mine. The shipment included some thirty tons, part of which was loaded on a scow and taken up the river yesterday. Mr. Silverman is taking back several men with him for an additional crew and the expectations are that they will be able to carry on the development work all winter.

Judge Jennings Grants Licenses For Ketchikan

Ketchikan, Sept. 8—Judge Jennings granted the saloon licenses for this place for the coming year yesterday. There is a general feeling of pleasure that the matter is settled to the wish of the largest majority of the people.

W. J. Rogers, who has been dragging for the wreck of the Islander in an attempt to recover sunken treasures, has abandoned the search for the present, but will make another effort next year.

Notice Of Administrator's Sale

It the matter of the Estate of J. W. Gano, Deceased

F. E. Smith, Administrator Notice is hereby given, that by virtue of authority vested in me, as the duly and legally appointed and acting Administrator of the above named Estate, and acting on an order duly made and entered on the 8th day of September 1915, by W. G. Thomas, U. S. Commissioner sitting as Judge in Probate directing me to sell all the property belonging to the above named Estate of J. W. Gano, deceased.

On the 18th day of September, 1915, at 2 o'clock P. M. of said day, on the premises, I will sell to the highest and best bidder for cash only all the property belonging to said Estate, same being known as the Wrangell Shingle Mill property and all appurtenances thereunto belonging.

An itemized list of said property can be seen either at the U. S. Commissioners Office, Wrangell, or at my Home, and will also be on exhibition on the day of the sale.

Dated at Wrangell, Alaska, this 8th day of September 1915,

F. E. SMITH,
Administrator of the Estate of J. W. Gano, Deceased.

Board Of Equalization Meetings

The Assessment Roll of the Town of Wrangell, Alaska, for the year 1915, has been completed by the Town Assessor, and is now open for inspection at the office of the Town Treasurer. The Common Council will sit as a Board of Equalization on the following dates and at the hours named in this notice, viz:—

Commencing on Monday, the 4th day of October, 1915, at 2 o'clock P. M. and remain in session until 4 o'clock P. M. of said day, and again on Tuesday, October 5th, 1915 at same place and during the same hours as on Monday.

The Common Council will meet again as a Board of Equalization on Thursday, October 28th, 1915, from 2 o'clock to 4 o'clock P. M. of said day and on Saturday, October 30th, 1915, at the same place and during the same hours as on Thursday.

The meetings of the Board of Equalization will be held in the Council Room, in the Town Hall on Church Street.

Any person desiring a reduction in the assessment of his or her property, shall make and file with the Board of Equalization a written application thereof, verified by their oath, showing the facts upon which it is claimed such reduction should be made.

Dated at Wrangell, Alaska, this 9th day of September, 1915,
PAUL F. STANLEY,
Town Clerk.

Another Election On Wet and Dry For Petersburg

Judge Jennings has set Saturday September 11 as the date of the holding of another election in Petersburg to give those who did not vote on the liquor question on May 24, a chance to cast their ballots. There is a strong feeling that the Narrows city will go dry after the ballot is counted.

Well Known Writers Pay Wrangell Visit

Wrangell entertained two distinguished visitors last week in the persons of Mr. and Mrs. Woods, two well known magazine writers of New York City. The trip to Wrangell was made for the purpose of gathering data for "The Tourist Northwest and Alaska" a tourists guide of Alaska they will publish.

Charles Lindstrom, a blacksmith about 46 years of age, committed suicide in a tent about seven and one-half miles from Chatanika last month, by shooting himself in the forehead with a 30-40 rifle.

Council To Prohibit Air Guns

The City Fathers met in session last Saturday night. All of the council men being present except Tate and Patenaude. After the regular routine of business the matter of the boys of the town shooting out the street lights with sling shots and air guns was taken up and on a vote it was decided to draw up an ordinance prohibiting the use of these within the town limits. The Judiciary Committee of the Council was authorized to draw up such an ordinance and present it at the next regular meeting of the council.

Ketchikan Term Of Court Is Adjourned

Ketchikan, Sept. 8—The term of court that has been in session here has been excused until Sept. 30th. Several cases were held over until then. The juries have been excused and will leave for home on the first steamer.

The tax roll for 1915 of the town of Ketchikan shows a total assessed valuation of property of \$1,172,750, an increase of about 100 per cent in the last six years.

Big Booster For The Stikine

Fred Bender, one of the old timers of the Copper River district, was a passenger down on the Winifred last trip and is waiting here for the Princess to proceed south. Mr. Bender is interested in several prospects in the Lake district and is also interested in claims along the Stikine river. In speaking of the future of the Stikine mining he states that it cannot be too highly praised as in his estimation that is the greatest mining district of the world. Mr. Bender is on his way out side on business, but will take in the California fairs before returning north.

The Valdez city council has passed an ordinance providing for the appointment of a wharf master and that no ship or boats of any kind can land at any other wharf or dock except that owned by the city unless this wharf master gives his consent says the Seward Gateway. The ordinance is due to the fact that the council wants to put the Valdez Wharf or Dock company out of business. The ordinance also provides that no goods from any vessel landing at any other wharf without permission may be hauled through the streets.

Printing Point Does Not Bob Up and Down

In an L. C. Smith & Bros. Typewriter the point on the paper which is to receive the type impression is stationary at the instant the type hits. The carriage does not bob up and down when the shift is made to write capitals.

Why?

Because the type is shifted—not the carriage.

The only movement of the carriage is back and forth on its closely adjusted ball bearing runways—and this does not take place while the print is being made. There is no lifting of the carriage.

This is one reason why L. C. Smith & Bros. type-writing is free from blurs and every letter in the right place.

A good show at the Wrangell Photoshow tonight.

School started last Tuesday morning. The same teachers as last year are engaged.

Miss Drowasky and Miss Beiler of the school force arrived up from the south last Sunday.

An effort is being made to get the Petersburg base ball team here for a game of ball next Sunday.

R. Downie who has spent the past summer here, left last night to resume his school studies.

Louis Lemieux left the first of the week for the south where he will attend the Oregon State College at Corvallis, Ore., this winter.

A good time dance was given at the Wrangell Photoshow last Saturday evening. The music was good and every one enjoyed themselves to the utmost.

Mrs. C. F. Radenbaugh left for her home in Ketchikan on the Dolphin last Saturday. She was accompanied home by Mrs. Stanhope and little daughter for a short visit.

Miss Mary Cannon, who for the past week has been visiting here with her uncle and aunt, Mr. and Mrs. Stedman, left on the Mariposa last night for her home in White Clouds, Michigan.

Weston and Loyd Dalgity left for the south last week. They will attend Oregon schools this winter, Weston at the Oregon Agriculture College and Lloyd at the Astoria High School.

Lin Adsit, the well known traveling man and recently benedict, was in town for a few days the first of the week receiving the congratulations of his friends and also some orders for his company.

Last Monday was Labor Day and as it is a holiday all stores closed in the afternoon. A ball game was to have been played but the rain forced it off. In the evening a dance was given at the Photoshow at which a good crowd attended.

A good show at the Photoshow tonight.

Seattle and Spokane To Be Oil Burners

An expenditure of \$50,000 in converting the steamers Spokane and City of Seattle into oil burners is being planned by officials of the Pacific Coast Steamship Company. The work, it is announced, is to be done this winter, following the close of the summer tourist season.

Clippings From Our Exchanges

Telephone communication has been established between Seward and Anchorage.

The fourth annual Horticultural and Agricultural Fair will be held at Skagway on Saturday, September 11th.

A government hospital for the care of the natives is to be completed in Juneau within the next three months.

The Weekly Pioneer, published at Anchorage, announces its intention of entering the daily field within a month.

The Marconi Wireless Telegraph Co. is making a bid for Alaska business, with rates 25 per cent lower than the government cable.

A report from Seldovia states that owing to the scarcity of fish, none of the canneries in that vicinity have put up more than half of their usual packs.

The fare to Anchorage from Seward has been reduced by the steamship companies from twenty and fifteen dollars to seventeen and twelve dollars.

The steamer Corwin, which this season is engaged in hunting walrus in the Arctic, is reported to be having wonderful success. On her first trip she brought 835 skins to Nome.

The Alaska-Yukon Alpine Club has been organized at Skagway. The announced purpose of the club is to place the glaciers and mountain peaks contiguous to Skagway prominently before the members of the various Alpine clubs of the world, and invite all lovers of the wildness and grandeur of the mountains to visit this wonderland of the North.

Louis Dahl, who is operating in the Chisana district, arrived in Cordova last week. He reports that on account of the scarcity of water there is no sluicing being done by the miners and everything is very quiet in the camp. There has been no rain there this summer and while some of the claims have produced considerable gold, it has been impossible to make a cleanup.

Will Try To Meet Canadians Rates

Steamship and railroad agents met last week at Seattle to consider the cut rate announced by the Grand Trunk line via Prince Rupert. The Canadian line is offering a through rate from Juneau to Eastern Canada and United States points \$9.00 less than now charged by the American lines via Seattle, and \$14 less from Skagway.

Government To Survey The Nome Harbor

Captain A. R. Ehrnbeck, of the Engineer corps of the U.S. army, has received orders to go to Nome and survey the harbor and make a report upon the advisability of building a breakwater. Captain Ehrnbeck had expected to make a survey of the naval reservation near Orca, but the plans of the war department were altered and the Nome work will be done first. Cordova Times.

Fairbanks Wants Mail The Year Around

Fairbanks has started a campaign to receive all of its mail all of the time. The Commercial Club has had printed and is furnishing free copies of a circular letter to be sent by individuals to all of the newspapers in the states, setting forth that during the winter months their publications do not reach the interior regularly and asking them to appeal to the Postmaster General to order dispatched from the Cordova office, after the close of navigation, all classes of mail for Fairbanks.

Big Fire On Mountain Near Whitehorse

The fire which has burning on Bare Mountain east of town for the past month, is still raging, the strong south wind of Tuesday causing it to burn more vigorously and spread more rapidly than any time since it started. As long as the fire is confined to the mountain side and top it can do but little damage. In fact, from a spectacular point of view, it is something of an asset to the town.—Whitehorse Star.

Could Find No Trace Of Stefansson

The United States coast guard cutter Bear, which carried the mails to Point Barrow, the most northerly point of Alaska, returned to Nome last week, and reports no word of Vilbjalmar Stefansson, the explorer, and his two companions has been received.

Famous Old Colonial Church.
St. Michael's, in Charleston, S. C., at the time of its completion in 1761 was the finest church edifice in the United States and one of the very few examples of masonry construction, including the tower as far as the belfry. It now stands apparently as firm as the day it was dedicated. Work on it was begun in 1752. Like almost all the colonial churches, this one suffered vicissitudes during the Revolutionary war. Its pastor was a Tory and was compelled to resign, leaving the church affairs in a somewhat chaotic condition. Materially it suffered through the loss of its leaden roof, which was removed to furnish bullets for the colonial rifles—ironclad.

Real Rubies.
"Most people are of the impression that the diamond is more valuable than any other jewel stone, but when it comes to weight the oriental ruby is many times what the finest diamond of the Kimberley field will bring," said a dealer, who has lately returned from a trip to the East Indies. "For instance, a fine 11 carat ruby sold in London a few years ago for \$55,000. An 11 carat diamond in the market would not bring anything like this sum. The smaller sized diamonds and pigeon blood rubies are not so wide apart in price, but real rubies are steadily in the lead in all gem markets."—Chicago News.

What He Thought of Reporters.
When Fred Kelly first broke into Cleveland journalism he was put on police. One night he was sent to beat fire down on the flats. A reporter named Brown was sent with him. The fire was a whale, and presently Brown disappeared. A wall had fallen, and Kelly was sure Brown was under it. He rushed to the telephone and called up his city editor. "Say," he shouted into the telephone, "Brown is gone! He's burned up!" "What's that?" asked the city editor. "Brown is burned up. I tell you! He fell into the fire!" "All right," said the city editor, hanging up the telephone. "I'll send another man."—Saturday Evening Post.

Soon Answered.
"What do you consider the best diet for a man?"
"The best he can afford."—Exchange.

Restoration To Entry Of Land In The National Forest

Notice is hereby given that the lands described below, embracing 200.06 acres, within the Tongass National Forest, Alaska, will be subject to settlement and entry under the provisions of the homestead laws of the United States and the act of June 11, 1906 (34 Stat., 233), at the United States land office at Juneau, Alaska on October 16, 1915. Any settler who was actually and in good faith claiming any of said lands for agricultural purposes prior to January 1, 1906 and has not abandoned same, has a preference right to make a homestead entry for the lands actually occupied. Said lands were listed upon the applications of the persons mentioned below, who have a preference right subject to the prior right of any such settler, provided such settler or applicant is qualified to make homestead entry and the preference right is exercised prior to October 16, 1915, on which date the lands will be subject to settlement and entry by any qualified person. The lands embrace a tract of 94.17 acres, described as follows: Beginning at Corner No. 1, a hewn post set at intersection of creeks, marked H 1 whence a spruce 30' in diameter bears S. 54 deg. A Letter To Women Of Alaska

Austin, Texas.
August 10, 1915.

To The Women of Alaska:

My recent visit to the magic land of the North has made me extremely eager to see more Womens Clubs organized in Alaska; these clubs should then organize into a territorial federation, and in May 1916, come into the General Federation of Women's Clubs.

Students of present day affairs are united in the opinion that no force has done more for the social uplift, for the betterment of home conditions, and for the improvement of the child than the woman's club movement.

It is by no means difficult to gather in a community a group of women who will gladly read or study together to prepare themselves for some line of civil action. There already exist in Alaska enough clubs to form a territorial organization.

Mrs. Frank White, the chairman of our membership committee, Valley City, N. Dak., Mrs. Mary I. Wood, the manager of the Bureau of Information, Portsmouth, New Hampshire, and Mrs. William P. Harper, Director of the General Federation, 651 Kinnear Place, Seattle, Wash., will gladly answer any questions as to the best steps of organizing and of coming into the Federation. All the forty-nine states in our organization stand ready to welcome most warmly, Alaska.

Mrs. Percy V. Penneybacker, Pres. of General Federation of Women's Clubs.
